Who We Are?

Star Link Spatial Communications is a leading provider of technology solution and custom software development, one who is dedicated to the development of customized, creative and affordable sources that our clients need & Star Link offers connectivity worldwide solutions for all critical communications services and our company aiming to be the first provider of satellite communication for all variety sectors worldwide.

Our Vision

Star Link strive to do what others cannot. At Star Link we share the same attitude towards overcoming challenges that the great scientists and engineers before us used to solve the world's most difficult problems.

How We Do It

Highly skilled people, following a proven approach and using the best materials has been the recipe for success for thousands of years. We use the same ingredients to build world class systems.

People
Our people are the best of the best

Innovation & Technology
We keep up with innovation & technology

Process
We use time-tested methods

Product
Products that best meet our customers' needs

Industries we Serve

As industries converge and new industries emerge, we are re-imagining our strategy, solutions, and platforms as well. Our innovators and thought leaders are in continuing conversations with those who influence and shape the future of industries.

Seamless
Connectivity
to the most
Remote Areas

VSAT

Reliable & Seamless remote
Communication on different bands

> Internet Connectivity

> Mobility

> Uninterrupted High Speed
  Broadband Communications

> Dual level of Redundancy

> Manage Data Network services

> Satellite Integration Solutions

5 Fleet Broadband

Harness the Data to Identify
New business opportunities

> Choose the bandwidth that fits
  your needs

> Control your costs and usage

> Enjoy total reliability in your
  communications

> Scale your communications
  as you grow

## 2 TVRO

Provide a strong signal for
TV and HDTV channels

> Maximum receiving efficiency
> Automatic satellite pointing
>   & identification
> Maximum system integrability
> Remote control interface

3 GMDSS

Global Maritime Distress and
Safety System

> EPIRB
> NAVTEX
> Search and Rescue locating device
> Digital selective calling
> Narrow band direct printing
> Ship-to-Shore Distress Alerts
> Shore-to-Ship Distress Alerts
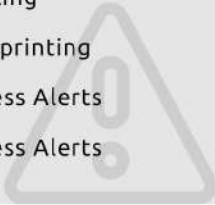

4 RADIO

Instant Communucations between
Vessels

> Distress calling and safety
> Ship to shore communications
> Navigation (vessels to bridges)
> Marine operator to call to shore
> Weather Broadcasts

6 ECDIS

Chart and Navigation
Data Updates

> Enhanced cyber security
> Secure chart updates
> Automated updates of NAVTOR
>   charts
> Reduces administrative burden
> Risk of human error & compliance
> Roadmap to new digital services

7 SSAS

Safeguard your Ship and
Protect the Lives of the Crew

> Tracking and Alert Messaging
> Pole to Pole coverage
> Alerts without limits
> Alert trails
> Alert procedures
> Closest ship
> Large interactive maps

8 VDR & SVDR

The Black Box

> Maintain sequential records
> Download & Playback
> Monitoring & Training
> Preserve in Safe & Retrievable
>   form
> Regular Checks & Upgrades

INSPIRE

1 Web Development

Idea, Research, Design, Build, Test & Launch

- Complete Website Development
- Core Services
- Enterprise Business Solutions
- Content Management Systems
- E-commerce Solutions
- E-governance Solutions
- Middleware Development

5 Analytics & Big Data

Harness the Data to Identify New business opportunities

- 360° View of the Customer
- Fraud Prevention
- Business Intelligence
- Cyber Security
- Social Media Analysis & Response

2 Mobile APP Development

Design, Develop, Test, Deploy and Release

> Andriod & IOS Application Development
> Online Payment Integration
> Integration Services
> Testing Services
> Deployment & Support
> Mobile App Marketing

3 AI & ML

Dive into the future with AI & ML solutions

> Data Management
> Business Case Planning
> Strategy and Build-up
> Optimise Process
> Risk and Compliance
> Predict Behaviour
> Automate Workflow

4 Internet Of Things (IoT)

Simplify, Improve, Automate and Control

> IoT Strategy
> IoTization
> IoT Platform
> IoT Applications & Analytics
> Integration with legacy System
> SAAS

6 Server & Web Hosting

Be smart. Stay smart. Back it up

> Shared hosting
> Virtual private server hosting
> Dedicated server hosting
> Cloud hosting
> Google Suite
> Business emails

7 UI & UX Design

Make your Software/Websites alive and meaningful

> Research
> Interaction Design
> Wireframe & Prototype
> Brand Design
> Product Redesign Services
> Usability Testing
> Front End Development

8 ERP

Unlock the personalized business tools for an exponential Growth

> Human Capital Management
> CRM
> Financial Management (POS)
> Project & Contract Management
> Inventory Management
> Accounting
> Time Attendance Software
